### **CDi ENGINEERS ADDS NEW ENGINEERING AND DESIGN STAFF**

CDi Engineers recently added three new engineering and design staff members to its Lynnwood office: **Rick Grove**, **Deborah Agner**, and **Micah Brewer**.

**Rick Grove** is a professional mechanical engineer with extensive experience in design of various types of HVAC and plumbing systems, as well as special expertise in construction administration. He is currently working on a number of healthcare projects for the firm, including work at Children's Hospital and Regional Medical Center in Seattle, and MultiCare Good Samaritan Hospital in Puyallup. Grove received a 2008 ASHRAE Technology Award (First Place, Category V, New Public Assembly, Society Level) for his work on the Firstenburg Community Center in Vancouver, WA. In keeping with his interest in sustainable design, he is a LEED® Accredited Professional.

**Deborah Agner** brings more than 13 years experience in the mechanical engineering field to her position of mechanical designer and Building Information Modeling (BIM) specialist. Agner's expertise includes design of mechanical HVAC systems using 2D and 3D modeling capabilities in AutoCAD and Microstation, as well as providing load calculations for HVAC systems. She is currently part of the team for a major high school renovation project in Oak Harbor, WA.

**Micah Brewer** is a recent mechanical engineering graduate whose current projects focus on energy and the environment, in keeping with his interest in sustainable design. He has held several engineering-related employment positions that provided him with significant experience in the design of mechanical engineering systems and with hands-on experience in the field. Brewer is currently working on a major high school renovation project in Oak Harbor, WA, as well as several healthcare projects including Legacy Emanuel Children's Hospital in Portland, OR.

CDi Engineers is a mechanical consulting firm headquartered in Lynnwood, Washington. [www.cdiengineers.com](http://www.cdiengineers.com)
